

*"The Anaconda rails were low cost and easy to install."*

## Anaconda – Slither or still

Anaconda rails are freestanding and provide a simple solution when multiple bikes need to be parked. Little Annie is for smaller framed bicycles.

### Features

- Lowest cost per bike and easy to use with any bike lock
- Can be pegged down for temporary public parking
- Freestanding, self supporting and can be fastened to most surfaces
- Use a joining sleeve to form a bank of continuous parking rails
- Powder coated or galvanised finish.
- Each rail parks two bicycles
- For all styles of bicycle. Supports the bike in an upright position

Anaconda parking rails secured to concrete plugs

## Towel Rail – Hugging the wall

Towel Rail parking rail at Bicycle Victoria

The Towel Rail is a space-effective solution for parking single bikes against a wall.

### Features

- Space-effective
- Powder coated or galvanised finish
- Accommodates all types and sizes of bicycle
- Is easy to use with any bike lock

### Basic dimensions required for installation

- Recommended rail spacing centre to centre 2000mm. Minimum spacing 1800mm.
- Mount horizontally approximately 700mm from the floor
- The bicycle will extend the width of the handlebars (up to 700mm) from the wall
